

L-600P EXCELUBE PLUS FUEL CONDITIONER

Revised 10-1-09

DESCRIPTION

L-600P Excelube Plus Fuel Conditioner is a scientifically formulated product developed through years of extended research and close studies of many other time-proven additives and conditioners.

L-600P Excelube Plus Fuel Conditioner is an exclusive combination of all the positive and time-proven ingredients used in some of the best products on the market today. A superior lubricity additive is also incorporated to provide injection pump lubrication when added to “dry” low sulfur diesel fuels. The combination of these time-proven ingredients, other field tested enhancers and ongoing upgrades make L-600P the most effective and versatile product of its kind on the market today.

PERFORMANCE CHARACTERISTICS

L-600P Excelube Plus Fuel Conditioner provides optimum lubrication for today’s diesel & gasoline engines, increases cetane, octane and prolongs engine life through the following features:

Inhibits harmful acids
Dissipates heat
Stabilizes fuels
Conditions fuel lines

Controls gum & varnish
Inhibits bacteria growth
Prevents gelling
Emulsifies moisture

Eliminates harmful deposits
Eliminates rust & oxidation
Cleans injectors
Lubricates upper cylinders

RECOMMENDATIONS

Fuel Treatment: Add one gal. Excelube Plus to each 1000 gals. of gasoline or diesel fuel.
Add 1/2 oz. Excelube Plus to each 5 gals. of gasoline or diesel fuel.

<u>SPECIFICATIONS</u>	
Viscosity @ 210°F, SUS	64
Viscosity @ 100°F, SUS	96
Flash Point, °F	82
Rust Inhibited	Yes
Anti-Wear Treated	Yes
