# C-108 “MEAN RED” CLEANER/DEGREASER

Caustic/Alkaline

01/01/18

### DESCRIPTION

C-108 “Mean Red” Cleaner/Degreaser is a superior quality product, formulated for extremely heavy duty cleaning jobs. This highly concentrated cleaner is a powerful combination of the most powerful surfactants, wetting agents, emulsifiers, rinse agents and water conditioners for deep penetration through heavy layers of grease, oil, dirt and grime. The high impact of water pressure or steam further enhances C-108 “Mean Red” Cleaner/Degreaser to outperform virtually any product on the market today on heavy duty clean-up applications.

### RECOMMENDATIONS

C-108 “Mean Red” Cleaner/Degreaser is formulated to use at 1 gallon of concentrate to 20 to 30 gallons of water for heavy duty cleaning applications. C-106 Steam Cleaner Liquid goes into solution quickly and completely dissolves, leaving no inefficient powder residue and is formulated for heavy duty jobs where a harsh, highly alkaline cleaner is needed. C-108 “Mean Red” Cleaner/Degreaser is not recommended for use on glass or glossy paint finishes such as automobiles & trucks as it can dull the finish.

### QUALITIES AND BENEFITS

- Concentrated to dilute as desired.
- Economical and rapidly removes heavy grease & grime.
- Biodegradable.
- Non-Flammable.
- Excellent rinse off.
- Excellent penetrating characteristic.

### APPLICATIONS

C-108 “Mean Red” Cleaner/Degreaser is formulated for heavy duty applications and will outperform virtually any cleaner on the market today in heavy duty applications such as cleaning oil rigs, shop floors, engines, tank and van trailers, tractors and heavy equipment.

### SPECIFICATIONS

Color	Red
Odor	Bland
Appearance	Clear/Red Liquid
pH of concentrate	13+
Flash Point, °F	None
Shelf Life	One year in sealed container
