L-623 TRUE OPEN GEAR LUBRICANT (CRATER COMPOUND)

01/01/18

DESCRIPTION

L-623 True Open Gear Lubricant is a crater type viscous, black, asphaltic base lubricant specially formulated to cushion and lubricate open and exposed gears, chains, cables and wire ropes which are consistently exposed to open weather conditions.

COMPOSITION

L-623 True Open Gear Lubricant is precision formulated with a pronounced stringiness that provides more positive lubrication because the strings adhere to the moving gear teeth and are fortified with the following additives for optimum positive lubrication:

Rust & Oxidation Inhibitors
Adhesive & Cohesive Agents

Anti-Wear Additives
Friction Modifiers

Molybdenum Disulfide
Extreme-Pressure Additives

APPLICATIONS

L-623 True Open Gear Lubricant is a very viscous product and may require heating during cold weather conditions.

L-623 True Open Gear Lubricant can be applied by paddle, pouring, brushing or by hand with protective rubber gloves.

SPECIFICATIONS

	Light Grade	Heavy Grade
Flash point, °F	490	518
Pour Point, °F	64	90
Viscosity @ 210°F, SUS	815	1525
Timken Load Rating	65 lbs.	65 lbs.
