C-119 PARTS WASH SOLVENT

01/01/25

Description

C-119 Parts Wash Solvent (Emulsion or Non-Emulsion Formula) is an industrial grade cleaning solvent formulated for heavy duty degreasing applications. **C-119 Parts Wash Solvent (Emulsion or Non-Emulsion Formula)** provides an economical and effective method for removing grease, oil, sludge and grime from parts. Grease, oil, dirt, sludge, grime, ink, light carbon, and asphalt are dissolved after only a few minutes of soaking and brushing. In addition, the flash point of over 140° F makes it safer to use and store than conventional petroleum solvent base degreasers.

Recommendations

For optimum results, it is suggested that the parts to be cleaned are soaked in the undiluted solution, brushed if possible and blown dry with compressed air, wiped dry, and allowed to air dry.

Warning

C-119 Parts Wash Solvent (Emulsion or Non-Emulsion Formula) contains aliphatic petroleum distillates. Harmful or fatal if swallowed. Do not take internally. If swallowed, do not induce vomiting. Call a physician immediately. Combustible. Use only in a well vented area. Do not use near heat, sparks, open flame or other sources of ignition. Do not smoke in use area. Store in cool dry location in original shipping container. Keep container sealed when not in use. KEEP OUT OF REACH OF CHILDREN.

Specifications	
Classification	Industrial Cleaner Solvent
Appearance	Red/Clear Liquid
pH	6.2
Flash Point, °F	142
